# ARIANNA CHAU

Front End Web Developer and UX/UI Designer

## ABOUT ME

I'm **Arianna**.
I'm a junior front end web developer and UX/UI designer from Portland, Oregon. I love to create, problem solve, and ask why. I favor clean and minimalist websites with gentle and neutral colors with layering that achieve levels of depth. I'm all about growing, challenging myself and lifting up/ encouraging those around me.
Oh, and my dogs, I'm all about my dogs.

## EDUCATION

**David Douglas High School**
*High School Diploma*
September 2009 - June 2013

**Epicodus**
*Software Development and UX/UI Design*
January 2017 - present

## SKILLS

* HTML
* CSS
* JavaScript
* TypeScript
* jQuery

* Iconography
* Bootstrap
* Angular
* Gulp
* Git

* Sass/Scss
* Sketch
* InVision
* Responsive Design
* Color Theory

## EXPERIENCE

**ByteShift**
*UX/UI Intern*
I'm the main designer of this small startup team. I design apps that use location based marketing. I'm responsible for wireframing, user stories, full mockups, consulting with other members of the team to learn what each client needs.
October 2017 - Present

**ScoutSavvy**
*UX/UI Intern*
Made app from scratch. Created user stories, logo, color scheme, wireframes and mockups. Conducted surveys online. Got a taste of what it's like to work at a start up, it was remote and extremely self directed.
September 2017 - October 2017

**Best Buy**
*Mobile Sales Associate*
I developed an immense attention to detail, and the ability to read my audience and adjust the conversation accordingly, as well as coming up with new ways to get our tasks done in a more effective way.
October 2015 - May 2017

**Starbucks**
*Barista*
I learned about working with a sense of urgency, maintaining pristine organization, and the importance of working as a team to accomplish a common goal.
April 2014 - September 2015
